

The World's Wounds

by Dr. Michael Obsatz – January 2023

How do we attempt to heal the world's wounds? These wounds are ecological, physical, emotional, and spiritual.

The world is suffering due to Empire Consciousness. This type of awareness of the belief system has existed for centuries. It is about separation, division, hierarchy, and scarcity.

Separation -- we are separate from spirit, from the earth, and from each other ISOLATION and ABANDONMENT

Division -- our differences and diversity mean more than our oneness and connection. We are different in beliefs, importance, and substance. TRIBES

Hierarchy -- some are worth more than others, some are entitled to more than others, some have the right to dominate others -- chosen people, manifest destiny, haves and have-nots, etc. DOMINATION

Scarcity -- there is not enough to go around, fear of now having enough, not being enough. FEAR AND INADEQUACY

These are the causes of suffering. Unless we change these into Oneness Consciousness, the world will suffer, people will suffer, and life will continue to involve struggle and pain.
