Oneness Consciousness and Empire Consciousness Connection

All is Oneness, connected with the entire Universe.

Empire Consciousness is created from fear, the illusion of separation and abandonment. It expresses a false sense of control based on hierarchy, power and domination.

Growing awareness of one's Oneness Consciousness is the re-connecting with the genuine power of love, equality and compassion.

Storytelling in small groups or through personal reflection. One by one, each person shares their answer to the first prompt below. Then go to next question and so forth. A person can pass.

- 1. Share about what you learned as a child about God. (was it fear based or love based?)**
- 2. Tell an experience about how living in "Empire Consciousness" has impacted you.**
- 3. Share a story of feeling loved by God, by another person, or loving yourself. (How did that make you feel at that time?)**
