

OUR BURDEN IS LIGHT:

The Freedom of Oneness Consciousness: The Proof is in the Plum Pudding

By Dr. Michael Obsatz – December 2025

WE BELIEVE:

We know we are lovable, loved, and loving because our spiritual connection is all about love.

When we live in Oneness Consciousness, we see beauty and joy everywhere, and in every person, creature, and thing.

We know that we will have enough — and can share what we have with others.

We dedicate our lives to helping others have what they need, love themselves, find their spiritual center and purpose.

WE DON'T NEED:

We don't need validation from others because we have Ultimate Spiritual Validation from the Universe.

We don't need to prove anything

We don't need applause, appreciation, awards or recognition.

As Divine Children of Universe we experience fascination, inspiration, and connection to all of life.

There is no where to get to, no envy, no comparison.

We don't need to win or be better than others.

We don't need to dominate anyone, pretend to control others, or life itself.

HOW WE LIVE:

We live with trust, hope, faith, compassion, kindness, and humility.

OUR BURDEN IS LIGHT.
