

# ONE IN THE SPIRIT! <sup>1</sup>

## The Evolution of Oneness Consciousness

By Dr. Michael Obsatz – March 2026

A meeting was held at the Peace Garden Plaza somewhere in the world. The song "Imagine" by John Lennon was played many times. Representatives from all parts of the world were there. It lasted one day. The two hundred delegates there decided to end Empire Consciousness once and for all times, and create one world, indivisible, with freedom and justice for all. They wrote up a new declaration, with abundance and love for all.

While the members acknowledged that they were different in age, gender identity, race, sexual orientation, spirituality — they adopted the following belief and action system:

1. We are different, but we will not define ourselves by our differences.
2. We are all One, children of the Universe.
3. We are all equal and have equal rights. No one is better or worse than anyone else.
4. There is abundance, enough for everyone. We share resources, knowledge, and celebrate peace, connection, and sharing all of the world's resources.
5. Money previously spent on war and violence can now be used for food, shelter, health care, and all essentials for all the world's children.

There are many ways to get to abundance, love and compassion.

The ways of various spiritual belief systems can provide alternative types of worship and community connectedness. The end goal for all is love, peace, understanding, hope, compassion for the earth, every living being, and all of creation.

Nothing and no one can divide us now. There is nowhere to get to.

We are worthy, lovable, loving, and loved. It is what we were born for.

We trust each other, do not need external validation, addictions, distractions and hoarding of material wealth.

We are ONE in the Spirit, and live with love, peace, joy and gratitude.
